Manufacturing engineer apprenticeship

Join a dynamic and diverse program delivered in partnership with SOLAS, designed to support your learning every step of the way.

As part of this apprenticeship, you'll learn and grow with hands-on training, expert mentoring, and a supportive team in a dynamic environment, all aimed at helping you achieve your goal of becoming a fully qualified Bachelor of Engineering (Level 7) in Manufacturing Engineering with E6.

Duration: 3 years

Co-op student placement

Gain valuable, practical experience through our co-op/intern opportunities, working on exciting projects with supportive mentors in a diverse, inclusive environment, where your ideas, growth and well-being are valued

Duration: Typically 9 months

Graduate positions

Start your career with us in a graduate role that offers valuable experience and meaningful work, supportive mentors, and a welcoming team in a diverse environment that values your growth and ideas. We offer graduate positions in the following areas (m/f/d):

- Process engineer
- Graduate trainee accountant
- IT specialist
- Supply chain
- Customer service
